District Overview

Narrative	<p>Community Board 3 Manhattan spans the East Village, Lower East Side, and part of Chinatown. It is bounded by 14th Street to the north, the East River to the east, the Brooklyn Bridge to the south, and Fourth Avenue and the Bowery to the west, extending to Baxter and Pearl Streets south of Canal Street.</p> <p>The CB 3 population is changing in many ways. The 2000 census reported that 23% of our population, over 38,000 of our residents, required income support. By 2014, this population had jumped to about 41% of the total population, over 68,000 persons. The number of people receiving Medicaid-only assistance also continues to increase, climbing from 45,724 in 2005 to 49,405 in 2014.</p> <p>Higher-income households have continued to increase since 2000, a trend similar to that of lower-income households. Further, the income diversity ratio, which is the gap between</p>
-----------	---

incomes, has increased since last year from 7.5% to 8%. Market rate housing and high-end retail continues to grow although many people within our community continue to live on the edge of homelessness and economic survival. An estimated 26% of people in CB 3, approximately 36% of their children under the age of 18, and 34% of seniors are living below the poverty level.

CB 3 is the third highest racially diverse community board in the City, with a foreign born population of 36%. We are approximately 31% White, 33% Asian, 25% Hispanic, and 7% Black or African American. The percentage of White and Black residents has increased while the numbers of Latinos and Asians have decreased. These population increases and declines are the opposite of demographic changes seen in New York City overall, according to the Furman Report.

The metamorphosis of this district into a nightlife destination has increased quality of life complaints. Year after year, CB 3 continues to lead or come in second among Manhattan community boards for the most NYPD commercial noise complaints (nightlife noise). Noise from nightlife establishments and their patrons is the most frequent complaint to the community board office. These complaints are very difficult to resolve because no agency has sole jurisdiction over quality of life enforcement. Lack of planning for enhanced police enforcement during cabaret hours, as well as lack of sanitation and traffic infrastructure to support this unplanned nightlife district, further impairs our ability to maintain a livable neighborhood for both newcomers and longtime residents.

CB 3 was severely impacted by Superstorm Sandy. A significant portion of CB 3 lost electricity for five days or more, flooding along the waterfront of the Lower East Side and East Village went inland several blocks. Residents of NYCHA were disproportionately impacted. Many small businesses lost all their inventory and days of business. There are several projects underway, listed below, in various stages, to address resiliency and recovery challenges.

- East Side Coastal Resiliency Project: \$335 million federal award to improve resiliency and recovery measures from Montgomery St. to E. 23rd St along the East River (currently in research and community outreach phase)
- NY State's NY Rising Program: participatory recovery and resiliency initiative established to provide assistance to communities severely damaged by Superstorm Sandy, Hurricane Irene, and Tropical Storm Lee. Lower Manhattan community covers all neighborhoods south of 14th St. Committee members voted on a variety of projects to address community planning and capacity building, economic development, including resiliency measures for small businesses, health and social services, housing, infrastructure and natural and cultural resources. (currently in procurement phase)
- Close to \$9 million is allocated for the study of resiliency measures starting at Montgomery St. heading south the Battery Park City.

It is critical that all resiliency and recovery efforts make significant efforts in the following areas:

- 1) Engage with residents of CB 3 to solicit input into potential changes and improvements
- 2) Engage with local stakeholders, including CBOs and NYCHA leadership
- 3) Ensure that all workshops include trilingual interpretation and materials are translated into Spanish and Chinese, in addition to English
- 4) All three projects listed above include significant portions of funding for feasibility studies, with additional investments needed for implementation. It is crucial that all relevant City, State, and Federal agencies continue to invest in recovery and resiliency efforts to follow through on improvement plans.

District Overview

Three Most Important Issues

Affordable housing|Social services including services for the homeless (new)|Youth and children's services (edited)

Commentary why these three were chosen as top issues

This community is filled with a diversity of cultures, religions, incomes, and languages. Its character comes from its heritage as a historic and present day first stop for many immigrants. CB 3 is one of the largest board districts and is the third most densely populated board district, with approximately 166,335 people. Our residents are very proud of their historic and diverse neighborhood, however, the very characteristics that make this district unique also make it a challenging place to plan and ensure services for all residents and businesses.

Our community is an example of the growing income inequality that is endemic in New York City. In a report by the Furman Center, CB 3 is ranked fourth out of the 59 boards in the City for a high diversity ratio between lower income and higher income residents. The same report shows that approximately 30% of our residents have household incomes under \$20,000 while nearly 20% earn more than \$100,000.

CB 3 has worked to retain its affordable housing stock and its local businesses while still serving the needs of its newcomers. The displacement of long-time residential and commercial residents is a great loss to this community. Many small family-owned stores, especially those that serve local retail needs and arts businesses, have been replaced by an ever growing number of bars and restaurants. Families have been displaced from their homes because they cannot afford increasing rents. Community-based organizations that provide essential services for community residents, struggle to provide more services and fund themselves with fewer resources. The growing need to provide for our lower-income residents in a gentrifying district, as well as provide services for all residents, continues to be a challenge for CB 3.

Health Care and Human Services

First Name	Susan
Last Name	Stetzer
Community Board Position	District Manager

Health Care and Human Services

Health Care and Human Services Most Important Issue	Services to reduce homelessness
Most Important Issue Explanation	DHS reports that the number one cause of homelessness for families with children in NYC is eviction (31%) and the number two cause is domestic violence (22%). There has been a dramatic increase of homelessness in NYC, DHS reporting over 60,000 individual in shelters in addition to street homeless. CB 3 has seen a dramatic increase in street homeless in the last year and 311 calls are up 78%.

Facilities and Programming for Older New Yorkers

Senior Services Needs and Budget Requests	Yes
---	-----

Facilities and Programming for Older New Yorkers -- Needs and Requests

High level comments or background information

According to the NYC Department of Aging and the U.S. Census Bureau:
 ~There are roughly 24,000 seniors in CB 3, which is approximately 15% of CB 3's population.
 ~Over 70% of CB 3 seniors aged 60 and above are foreign born – the second highest ranking community district in Manhattan for percentage of foreign born seniors.
 ~Approximately 23% of seniors speak Spanish and 43% speak Chinese. Roughly 59% of people over 60 years old reported speaking English "less than very well" according to the 2010-2012 ACS.
 ~Approximately 8000 seniors (65+) in CB 3 are below the poverty line, which is approximately 33% of seniors in the district.

In order to accommodate the district's vulnerable senior population, CB 3 calls for the continuation and strengthening of:

Multilingual supports and services that allow senior citizens to remain in their homes and communities, such as congregate and home-delivered meals, case management and coordination, home care services (including non-Medicaid funding homecare), safe and reliable van transportation, physical and mental healthcare, recreational activities, programs like Visiting Neighbors that provide much needed companionship and assistance with essential activities such as grocery shopping and affordable, accessible housing.

Services such as Naturally Occurring Retirement Communities (NORC) provide critical supports to help seniors age safely in their own homes, and funding for existing programs should be maintained, while the NORC programs in our community should be expanded.

This district cannot afford to lose senior centers, particularly since they are culturally sensitive to our diverse community and in proximity to so many seniors' homes.

Senior Case Management
 Explanation: There are roughly 24,000 seniors in CB 3, which is approximately 15% of CB 3's population, and 33 % of these senior live below the poverty line. Case management agencies help many of these seniors obtain needed home-delivered meals, in-home services and entitlements and benefits. They also provide referrals to other community services.

Facilities and Services for the Homeless

Homeless Services Needs and Budget Requests	Yes
---	-----

Facilities and Services for the Homeless -- Needs and Requests

<p>High level comments or background information</p>	<p>CB 3 is home to over 15 shelters, among the highest in the City. Most of these facilities are absorbed into the community without notice. However, the Third Street Men's Shelter and Kenton Hall continue to have ongoing impacts on the community, including drugs and loitering and reported aggressive behavior on the street.</p> <p>Current outreach targets chronically homeless (homeless over two years) with case management. Manhattan Outreach Consortium reports that on average, once an individual is added to caseload, it takes two weeks to get them off the street. In the last fiscal year, MOC has placed 222 clients into permanent housing and the retention rate is 92% after one year. Since not all of the homeless fit into the "chronic homeless" category, they are not followed with case management. Therefore, CB 3 believes the current policy of conducting outreach to only chronically homeless individuals should be reassessed to allow for outreach to all homeless.</p> <p>CB 3 is the summer destination of young homeless travelers. There are many complaints of aggressive and inappropriate public behavior and drugs. The City needs to create and fund programming that will effectively outreach to this population. Currently they do not fit into "chronically homeless" category and fall outside outreach and services.</p>

There are not only more homeless, some of the beds previously designated for street homeless have been redesignated for subway homeless, which is also dramatically increasing. Safe haven beds are low-threshold housing that enable street homeless to transition to housing and have proven effective. Currently there are not always beds available and street homeless have had to wait for this form of shelter.</p>

Please explain and specify your request. The more specific your request is the better the City is able to respond. <i>Please limit your explanation to 100 words</i>	Increased funding for Manhattan Outreach Consortium caseworkers Explanation: CB 3 has seen a dramatic increase in street homeless. While MOC has been successful in the last fiscal year in placing 222 clients into permanent housing and the retention rate is 92% after one year, there has not been an increase in staffing to accommodate the increase in street homeless. Additionally, an increase in the number of case workers would allow more homeless can be put on case management, not just those chronically homeless for two years.

Services and Programming for Low-Income and Vulnerable New Yorkers

Services for Low-Income and /vulnerable New Yorkers Needs and Budget Requests

Yes

Services and Programming for Low-Income and Vulnerable New Yorkers -- Needs and Requests

High level comments or background information

Community District 3 is a federally designated health professional shortage area in the fields of primary care, dental care, and mental health. There is a need to increase the number of Chinese-speaking providers.

While 84% of residents in the Union Square-Lower Manhattan district have some form of health insurance coverage, approximately 9% of residents in the district did not get medical care at some point in 2013 when they needed it. Considering that nearly 20% of residents reported that they were in fair or poor general health in the 2013 Community Health Survey, it is essential that there is equitable access to health care services, particularly since most medical facilities are clustered around Union Square and Chinatown.

In 2013, there were 3,281 People Living With HIV/AIDS in the Union Square/Lower East Side United Hospital Fund district. The same report shows there were 41 AIDS diagnoses and 58 deaths in this district. Funding is needed to enhance existing programs and to develop better linkages between programs in order to reduce fragmentation of service delivery.

It is essential that adequate funding be provided to community-based non-profit Housing advocacy and legal organizations. This is essential to safeguard existing affordable housing. These groups provide essential assistance to tenants who are fighting the lack of basic services, building code violations, and threatened evictions. Without the work of these community-based organizations, harassment of rent-regulated tenants will be unchecked and long-term residents displaced. The city must increase funding of these groups that provide the first line of defense to community residents.

Please explain and specify your request. The more specific your request is the better the City is able to respond. <i>Please limit your explanation to 100 words</i>	City's Special Exit and Prevention Supplement (SEPS) Program Explanation: In CB 3, 37.9% of renter households are severely rent burdened and low income. This program can help eligible individual adults and adult families (families without children) at risk of entry to shelter and those already in shelter to secure permanent housing. The number of households that can be approved to receive the SEPS Rent Supplement is limited due to available funding. Therefore increased funding is necessary. This is a necessary anti-eviction program to prevent increase in homelessness.

Youth, Education and Child Welfare

Youth, Education and Child Welfare Most Important Issue	After school programs
Most Important Issue Explanation	<p>CB 3 has more than 21,600 children under 18 years old. The 2009-2013 American Community Survey found that roughly 32% of family households with related children under 18 years of age were below the poverty level. Nearly 25% of households received some form of emergency food assistance. Many of these families rely on community-based programs during after-school hours and on weekends and holidays.</p> <p>Families and youth are in need of intervention services and support system programming. Proactive programs are needed, such as employment, training opportunities, and programs in addition to sports.</p>

Educational Facilities and Programs

Educational Needs and Budget Requests Yes

Educational Facilities and Programs -- Needs and Requests

High level comments or background information Community District 3 is home to 50 public schools, including 5 charter schools. Of these, 37 are located in Community School District 1 (CSD1) and 13 are located in Community School District 2 (CSD2). Additionally, 17 schools and 16 community-based organizations offer pre-k in the CSD1.

More than 12,000 students were enrolled in CSD1 schools in the 2014-2015 academic year. The largest population of students in CSD1 identifies as Hispanic or Latino (41%), followed by Asian or Pacific Islander/Other (23%), Black or African American (17%) and White (17%). Seventy percent CSD1 students are living at or below the poverty level, 10% are English language learners and 20% are students with disabilities.

According to DOE data, 4 CSD1 school buildings, housing 6 schools, are over-utilized. Additionally, more than 1,000 new students are projected in Pre-K through 8th grade in CSD1 over the next 5-10 years, with another 3,000 students expected for the same grades in CSD2. However, no new seats are provided for CSD1 in the 5-year Capital plan.

In 2013, Community School District 1 completed a physical education and activity facility survey as a community needs assessment and inventory of those resources and facilities. The survey was conducted at all 31 of the District's schools, ranging from Elementary Schools to High Schools. The survey revealed that the many of the playgrounds are in poor condition or have no facilities or equipment for play. Since the completion of the survey, several improvements have been budgeted and planned for. However, many needs remain. For example, five buildings, serving nine CSD1 schools, are not equipped with gyms.

Youth and Community Services and Programs -- Needs and Requests

High level comments or background information

CB 3 is home to more than 21,600 children under 18 years of age. The 2009-2013 American Community Survey found that approximately 36% of the population under 18 years had income below the poverty level and roughly 32% of family households with related children under 18 years of age were below the poverty level. Nearly 25% of households received some form of emergency food assistance. According to the 2014 Furman report, 30% of households residing within CB 3 have a household income of \$20,000 or less, and many of these families rely on community-based programs during after-school hours and on weekends and holidays.

Families and youth are in need of intervention services and support system programming. Agencies working with at risk youth populations agree that proactive programs are needed, such as employment, training opportunities, and programs in addition to sports.

Older youth, and at-risk youth in particular, need employment and job training opportunities such as the Summer Youth Employment Program (SYEP) which helps produce positive outcomes, such as higher lifetime earnings and higher rates of high school attendance.

CB 3 also supports additional efforts to combat youth homelessness. According to Safe Horizon, nearly 20,000 homeless people 24 years old and younger live in New York City. Approximately 40% of homeless youth identify as LGBTQ, compared to 10% of the general youth population in the United States. LGBTQ runaway and homeless youth face a unique set of challenges, from greater exposure to HIV/AIDS to being ostracized by their families and communities. Additionally, homeless youth identifying as lesbian, gay, bisexual, transgender or queer are more likely to commit suicide than other youth. Specialized outreach services are required to address these challenges.

COMPASS
 Explanation: CB 3 is home to more than 21,600 children under 18 years of age, many of whom need e programs like the Comprehensive After School System of NYC (COMPASS), which is made up of over 800 programs serving K-12. There are over 10 programs in the Lower East Side, but many of these have waitlists and there is a lack of funding particularly for neighborhood-based elementary as well as high school slots that need to be increased.

Please explain and specify your request. The more specific your request is the better the City is able to respond. *Please limit your explanation to 100 words*

Increased funding for Beacon programs
 Explanation: According to the 2014 Furman report, 30% of households residing within CB 3 have a household income of \$20,000 or less and many of these families rely on Beacon community centers. Beacons are school-based community centers offering resources and support to children, youth, and adults. They operate in the afternoons and evenings, on weekends, during school holidays and vacation periods, and during the summer. CB 3 has many low income families and currently 3 Beacon programs - more Beacons are necessary to accommodate them.

This program provides services including drop-in centers, crisis shelters, transitional independent living programs, and street outreach and referral services. Runaway and homeless youth need protection and help reuniting with their families whenever possible. The program also offers needed specialized programming for runaway and homeless pregnant and parenting youth, and LGBT youth who need help to get off the streets and stabilize their lives.</p>

Public Safety

Public Safety Most Important Issue	Other
Most Important Issue Explanation	Nightlife and Licensing - The continuing increase of 311 noise complaints despite the decrease in applications for liquor licenses demonstrates that the City is increasingly unable to enforce quality of life complaints. NYPD precincts have lost their specialized cabaret units that had been so successful in addressing these and other issues associated with licensed businesses.

Policing and Crime

Policing and Crime Needs and Budget Requests	Yes
--	-----

Policing and Crime -- Needs and Requests

<p>High level comments or background information</p>	<p>The new intercity bus permit system, along with the increased number of "Chinatown bus" companies, has resulted in layover and staging problems on the streets in Chinatown and the surrounding neighborhoods. Permitting of stops is being done on a case-by-case basis that is driven by individual applicants. Many bus companies without permitted stops continue to operate at these stops and at other unpermitted locations. This process ignores accompanying issues of staging and layover.</p> <p>Legislation was created to manage and control buses and allow for compliance. However, violations issued by police have not proven effective; there are still many noncompliant buses paying violations as a cost of business. Effective enforcement is necessary. Options that should be investigated are dedicated enforcement staff from NYPD and new methods of enforcement such as higher fines, towing, and suspension of business operation. There needs to be coordinated information sharing between NYPD enforcement and DOT licensing so that "bad actors" are penalized when permits are issued.</p> <p>There is extreme sidewalk and street congestion on the west side of the block of Allen St below Hester St, related to the commercial loading/unloading practices of fish, fruit and vegetable wholesale businesses that supply restaurants in Chinatown. These distributors keep pallets of food and mechanical equipment outside on the sidewalk for many hours, obstructing pedestrian traffic and forcing delivery trucks to double-park. The increasing numbers of intercity buses loading and unloading passengers on Allen St exacerbates the sidewalk and street congestion. There is a need to educate the businesses on state regulations, and make sure they have the tools to comply.</p>

Sanitation Services -- Needs and Requests

<p>High level comments or background information</p>	<p>Rodents Community Board 3 has seen an increased rat problem in the last year. The failure rate for rat findings has increased from 7.75 % to 8.3% according to the Department of Health Indexing. The serious rat infestation problem in Community Board 3 is a public health and safety issue:</p> <ul style="list-style-type: none"> • CB 3 consistently ranks in the top two or three worst community boards among community boards in Manhattan for failing rat inspections and is rated as "urgent action required." • CB 3 ranks third lowest among all NYC community boards for percentage of acceptably clean streets. • CB 3 is an unplanned destination nightlife district, but does not have the sanitation infrastructure to accommodate this. DSNY litter baskets often overflow. The Department of Health has stated that the number of eating/drinking businesses contributes to this problem, but there is no plan to deal with the problem. Sanitation needs to have more basket pickups on weekends to prevent garbage on the streets that attract rats. • Sidewalk "rat-restaurant" baskets need to be replaced with rat-proof litter baskets. • CB 3 is a very densely populated. There are many old tenements without access to indoor storage or compactors. Increased curbside refuse and recycling pickup service are needed.

Last Name	Stetzer
Community Board Position	District Manager
Phone Number	212-533-5300
Email	sstetzer@cb3manhattan.org

Land Use, Housing and Economic Development

Land Use, Housing and Economic Development Most Important Issue	Affordable housing programs
Most Important Issue Explanation	<ul style="list-style-type: none"> • The median rent for all renters in our community district increased by 14.3% between 2005 and 2013, from \$854/month to \$977/month (2014 inflation adjusted). During this time, the median rent for all renters in NYC as a whole increased by just 9.9%. • With a rental vacancy rate of 4% , units are very hard to come by and affordable units even harder. The 2013 Furman Center report ranks this board's vacancy rate 17th out of 51 community districts – a jump from 26th place in 2012. This phenomenon is attributable to a number of factors including: <ul style="list-style-type: none"> o Government cut-backs in subsidized housing and rent vouchers; o Increasing rents in New York City Housing Authority (NYCHA) developments; and o The expiration of restrictions on former Section-8 and Mitchell- Lama housing.

Land Use

Land Use Needs and Budget Requests	No
------------------------------------	----

Land Use -- Needs and Requests

High level comments or background information	<ul style="list-style-type: none"> • NYC Department of Housing Preservation & Development (HPD) and Department of Buildings (DOB) must vigorously enforce the Housing, Building and Zoning Codes. HPD needs to ensure that residential structures are adequately maintained and safety standards are met at all times, and that threats to children's health from asthma triggers, lead and vermin are eradicated. • Effective plan examination and increased enforcement with tools to enforce regulations is necessary so that non-compliant development does not go unchecked. • Follow up on Environmental Control Board (ECB) and DOB violations to ensure that all violations, including those overseen by the ECB, are corrected and the fines are not merely absorbed by developers as part of their cost of doing business. • Legislation is needed to increase these fines to a level that that makes them a real deterrent to over-development as well as other tools for enforcement. • Federal cutbacks in Community Development Block Grant funding, which has long been used to support HPD and DOB enforcement, will diminish these essential code enforcement services and further threaten our housing stock. These cuts must be reversed. <p>Landmarks</p> <ul style="list-style-type: none"> • The City should provide funding for sufficient LPC staff so that there is no need for actions such as the recent proposal to de-calendar properties without public input. • LPC should recognize that CB3 is rich in buildings of historic, cultural, and architectural significance and is a community under threat of inappropriate development. Some of the areas in need of immediate action are: <ul style="list-style-type: none"> o Extension of the East Village/Lower East Side Historic district o Extension of the East 10th Street Historic District to include the area surrounding Tompkins Square Park o A new historic district south of Houston Street

Housing Needs and Programming

Housing Needs and Budget Requests	Yes
-----------------------------------	-----

Housing Needs and Programming -- Needs and Requests

High level comments or background information	<p>Because affordable housing is as threatened as it is, we must fully utilize available governmental enforcement tools to assure that existing housing is maintained adequately and that developers do not alter the housing stock in ways that threaten existing tenants or force them from their homes. Since 2010, the percentage of rent-burdened households in the district has grown; 37.9% of renter households are severely rent burdened and low income.</p> <p>Over the last decade, federal, state and local government have drastically reduced funding available for the construction or renovation of new affordable housing. Other than Essex Crossing, the only affordable housing being built is in 80/20 buildings; there are none being built that are totally affordable. The stock of subsidized affordable housing needs to be increased.</p> <p>Virtually no new Section-8, public housing or Mitchell-Lama housing has been built to replace lost housing stock. The almost complete elimination of Section-8 vouchers has also made it vastly more difficult for low-income and homeless families to find decent affordable housing on the private market.</p> <p>The Department of City Planning's proposed Quality and Affordability Text Amendment intends to make affordable housing easier to develop. DCP should strengthen the affordability requirements to fulfill this goal and work with agencies to create tax incentives or other incentives for accessible ground floor apartments to provide needed affordable housing for seniors and for people with mobility disabilities, especially in walk-up buildings located in residential streets.</p> <p>Additionally, The New York City Housing Authority (NYCHA) owns and manages over 14,000 units of low-income housing in CB 3, and the preservation of these apartments as viable, secure, publicly-owned housing is vital to ensure that our community remains diverse and economically integrated.</p>

Transportation

Transportation Most Important Issue	Accessibility
Most Important Issue Explanation	<p>Accessibility and pedestrian safety are a Community Board 3 priority:</p> <ul style="list-style-type: none"> ~Curb cuts are essential to make the sidewalks accessible for people who rely on wheelchairs for mobility. Currently they are forced to travel in the street in some locations. An expedited schedule for the remaining curb cut installations is an essential priority. ~Many existing curb cuts need repair. NYC Department of Transportation (DOT) should prioritize identification and repair of curb cuts that do not meet smoothly with the street bed. ~All crosswalks should be clearly marked and curb cuts should be well-defined in the pavement.

Traffic and Transportation Infrastructure

Traffic and Transportation Infrastructure Needs and Budget Requests	Yes
---	-----

Traffic and Transportation Infrastructure -- Needs and Requests

High level comments or background information	<p>Local businesses need adequate loading/unloading zones for commercial delivery. Curbside parking regulations need to balance competing demands of pedestrians, businesses and motorists.</p> <ul style="list-style-type: none"> • Businesses should be encouraged to report needs so that loading zones can be sited, allowing small businesses to comply with regulations. • Commercial delivery needs must be considered by DOT when DOT assigns on- street bus stop locations through the intercity bus permit system. Existing truck loading zones should not be eliminated if this threatens the continued operation of existing local businesses.

<p>Budget Category</p>	<p>Capital</p>

Please explain and specify your request. The more specific your request is the better the City is able to respond. *Please limit your explanation to 100 words*

Complete Replacement of Complex curb cuts
 Explanation: Curb cuts are essential to make the sidewalks accessible. Currently people in wheelchairs are forced to travel in the street in some locations. An expedited schedule for the remaining complex curb cut installations is an essential priority.

Parks, Cultural and other Community Facilities

Parks, Cultural and other Community Facilities Most Important Issue Park care and maintenance

Most Important Issue Explanation Community Board 3, like most districts in NYC, does not meet the City Planning Commission's guidelines for per capita open space according to the Governor's Open Space Report based on the 2010 census. In CB 3, the open space/population ratio is approximately 0.66 acres per 1,000 people while the Governor's report recommends 2.5 acres per 1000 people. Additionally, open space is not evenly distributed throughout the district, with the area west of Avenue A and Chinatown lacking adequate open space. For these reasons it is important to CB 3 to preserve what we do have while advocating for more.

Parks and Recreational Facilities and Programming

Parks and Recreational Needs and Budget Requests Yes

Parks and Recreational Facilities and Programming -- Needs and Requests

High level comments or background information Some Parks Department buildings in our community are used as store houses for citywide Parks operations. CB 3 already has so few community facilities, our local park houses should not bear this unfair burden for other neighborhoods. Additionally, toilets in CB 3 parks, recreational fields, playgrounds and park buildings with park programming are badly needed.

Lack of park space is compounded by lack of recreational sports fields. This is further exacerbated by permits allocated to groups from outside the community. While we do not seek to exclude outside groups from our parks, we do feel that:
~Priority should be given to local groups, particularly non-profit youth leagues.
~Emphasis on local groups should include a re-examination of Park Department policies that restrict the use of parks and play areas during daytime hours.

Library Facilities and Programming -- Needs and Requests

High level comments or background information	<p>A study conducted by the Center for an Urban Future found that across the city, although library visits, book circulation and program attendance have consistently increased in the past decade, our libraries are open fewer hours than the state's largest counties and trail behind cities throughout the nation. Community Board 3 has five branches of the New York Public Library (NYPL) system: Chatham Square, Hamilton Fish, Ottendorfer, Seward Park, and Tompkins Square.</p> <p>The branches in Community Board 3 have amongst the highest numbers of visits in the NYPL system and program attendance across the district is up over 20% from the previous fiscal year. Of all the branches in the NYPL system the Seward Park branch is 5th in terms of visits, 6th in terms of circulation, and 3rd in both programs offered and program attendance. The Chatham Square branch is 6th of all branches in visits and 7th in circulation. Chatham Square and Hamilton Fish have both seen significant increases in the number of visits during FY15.</p> <p>According to NYPL statistics, in Fiscal Year 2015 the libraries in CB 3 had 1,036,829 visits.</p> <p>The libraries are especially necessary to our many low- and moderate-income residents who depend on the libraries for access to books and film and as the only quiet place to read or do homework or other work. In addition to several capital improvements, our libraries need funding for expansion of collections, automation, staffing, and programming.</p>

Please explain and specify your request. The more specific your request is the better the City is able to respond. *Please limit your explanation to 100 words*

Increased funding for libraries
 Explanation: CB 3 libraries 3 have the highest numbers of visits in the City and program attendance across the district is up over 20% from the previous fiscal year. Funding is needed to provide robust six-day service including increased hours, diverse programming, strong collections, and sufficient staff to support these functions. CB 3 residents have very strong need for libraries that provide a place for homework and reading and refuge also provide internet access that residents cannot afford.
