FOR IMMEDIATE RELEASE

Industry Notice #05-26

September 27, 2005

TLC WEB SITE NOW CONVENIENTLY FEATURES MEDALLION TAXICAB INSPECTION SCHEDULE

Beginning today, in order to better serve its licensee customers, the New York City Taxi and Limousine Commission (TLC) web site will feature the initial inspection schedule for all medallion taxicabs at the agency's Woodside Safety and Emissions facility.

The posted schedule will include the inspection dates for one entire four-month cycle, with the current schedule featuring the cycle that began July 1, 2005 and will end on October 31, 2005. The site will be updated regularly with future inspection cycles. Inspection dates are also included with the Vehicle Inspection Report (VIR) that is provided at the time of your previous inspection, as well as on the back of each taxicab's rate card, making this a third option for those wishing to know their scheduled inspection dates.

This web site upgrade is one of many improvements and service options that have been added to the TLC web site to enhance service to the public and its licensee customers.

The schedule may be accessed through the home page navigation menu under "Industry Information" at www.nyc.gov/taxi, or through the following direct link: http://www.nyc.gov/html/tlc/html/safety_emissions/medallion_schedule.shtml.
